AUDIO OPTIONS

Audio choices are determined by the webinar organizer. Your choice of audio mode is provided in the Audio pane of your Control Panel. By default, you will be joined into the webinar muted.

If the **Mic & Speakers** option is available, you can join the webinar via VoIP.

Note: If you choose to join via VoIP, you will need speakers to listen to the webinar and a microphone to speak (if the organizer gives you speaking rights).

VoIP Best Practices

If you join the webinar using VoIP, please note that audio quality can vary based on your audio software/hardware manufacturer as well as your operating system. When using VoIP, the following best practices are recommended:

- For optimum sound quality, a headset is recommended, preferably a USB headset.
- If a headset is not available, speakers are required to listen to the webinar and a USB microphone to speak (if the organizer gives you speaking rights).
- If using a microphone, it should be at least 1.5 feet away from any speakers built in or connected to your computer.
- Using a webcam microphone is not recommended.
- If you are unmuted by the organizer, you may need to turn the volume down on your speakers to avoid echo.

Switch audio formats during a webinar

If the organizer has given attendees a choice in how to join the audio portion of the webinar, you can switch between using VoIP (Mic & Speakers) or Telephone during the webinar session.

In the Audio pane, select either **Telephone** or **Mic & Speakers**. If joining via telephone, be sure to enter the Audio PIN noted in your Control Panel.

Note: If you choose to join via VoIP, you will need speakers to listen to the webinar and a microphone to speak (if the organizer gives you speaking rights).
